Experience

Creative Developer

Mar 2023 — current

DEPARTD | Berlin, Germany

- Developing AR experiences using Spark AR, Lens Studio, and Effect House, including illustrations, audio, and 3D & 2D animations, used by numerous users.
- Conceptualising and Implementing interactive elements using JavaScript and C#, leading to enhanced and increased user interactions.
- Collaborating closely with designers, 3D artists, and project managers, to deliver high-quality projects within tight deadlines.
- Experimenting and staying up to date with technologies, including Unity, to explore innovative ways to enhance the immersive nature of AR experiences.

Frontend Developer

Feb 2020 — May 2022

Endava | Berlin, Germany

- Implemented and enhanced React-based video players for streaming services, improving the streaming experience for millions of users in the DACH region.
- Built and maintained responsive and functional websites (TVthek, Flimmit, MyFidelio, Freenet TV) using Vue, React, APIs and PHP.
- Effectively collaborated with a cross-functional team, demonstrating strong leadership, teamwork, and transparent communication.
- Provided valuable support in UI/UX design, enhancing the efficiency of designers and reducing miscommunications.
- Maintained thorough documentation and implemented CI/CD practices, fostering knowledge sharing, and mitigating risks.

Digital Developer

May 2019 — Jan 2020

Artistica Digital | Edinburgh, UK

- Developed and enhanced performant web applications using Figma, HTML, SCSS, React, and GraphQL, driving improved startup performance.
- Implemented GraphQL and Strapi to boost database efficiency and data manipulation.
- Customized and optimized CMS platforms like WordPress for efficient content management.
- Streamlined project workflows with designers for seamless collaboration.

Multimedia Designer

Aug 2016 — Apr 2018

ANZIIF | Melbourne, Australia

- Developed and designed interactive courses using LMS platforms (Moodle, Rise, Storyline), improving the learning experience for insurance professionals.
- Utilized diverse multimedia elements, enhancing student satisfaction and performance by %40.
- Maintained and improved UX/UI of LMS/CMS system, ensuring seamless learning.
- Collaborated effectively with SMEs, incorporating expertise into course content.
- Re-designed and implemented a glossary platform, improving students and SMEs understanding of the course.

Education

Master of Design & Digital Media

Sept 2019

University of Edinburgh | Edinburgh, UK

Bachelor of IT (Multimedia Design)

July 2016

RMIT University | Melbourne, Australia
